Commented [ja1]: Update ToC

Welcome

I'm David Perdew, the CEO and Founder of NAMS, Inc. We've focused on delivering real solutions from Day 1 (many years ago) when we began NAMS. We've narrowed our focus to 3 broad areas:

Team | Training | Tools

Welcome! You're a part of the Team now. And this Installation Guide will help you install the tool – [Simple Click Tracker](#). Let's get started.

Hope you enjoy it.

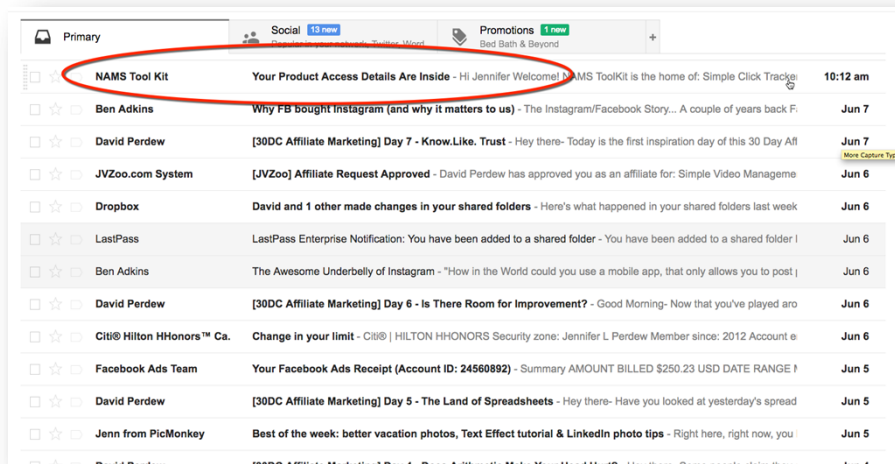

David Perdew

After purchase, what's next?

Once you've completed your cart purchase of SCT, you'll receive 2 emails from NAMSToolkit.com.

- 1) The first asks you to confirm your purchase by clicking the link. That ensures you receive notices of updates and special tips on using the tool.

- 2) The second contains your member login information including:
 - a. Username
 - b. Password
 - c. And Member Site Link

Hey there ~Contact.FirstName~

Thanks for your purchase -

Please keep this email for your records

Your License Code Is:

~Contact._sctlcense~

Your unique license code will be here. Don't lose that.

Click the button below and you'll be automatically logged into your account

Click this button to be logged in automatically!

Click HERE To Log In

For Your Records:

Login Location

<https://nams.ws/ch>

Your user name is: ~Contact.Email~

Your password is: ~Contact.Password~

OR... Click on this short link to access the membership area to download the plugin using your username and password below

Your username and password is the same for all NAMS products and sites.

Click the member access link and you'll land on the member site login page in your membership area.

You'll go directly to the download and license page.

Download your plugin and save it to a directory you'll remember. Bookmark this page so you can come back to it easily.

This is where you'll find your license key as well.

Self-Hosted Click Tracking Technology To Use In Your Business

First Things First:

Your WordPress License Key Is:

License Type	License Key	Expiry Date
single site	NTK-7 	Never

This is very important: You must register your license when you add it to your WordPress site to get updates and use the software.

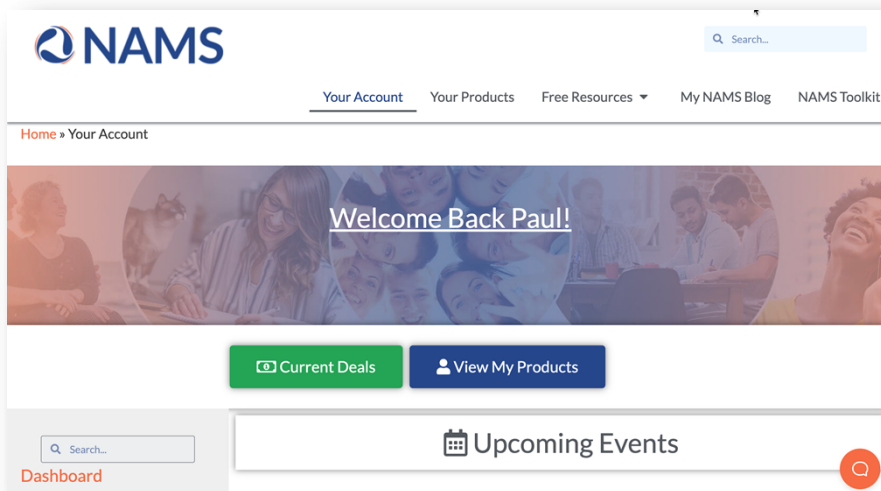

Your license key is here.

In addition to the Simple Click Tracker software, you'll get access to MORE than 30 other training tools.

The adventure begins.

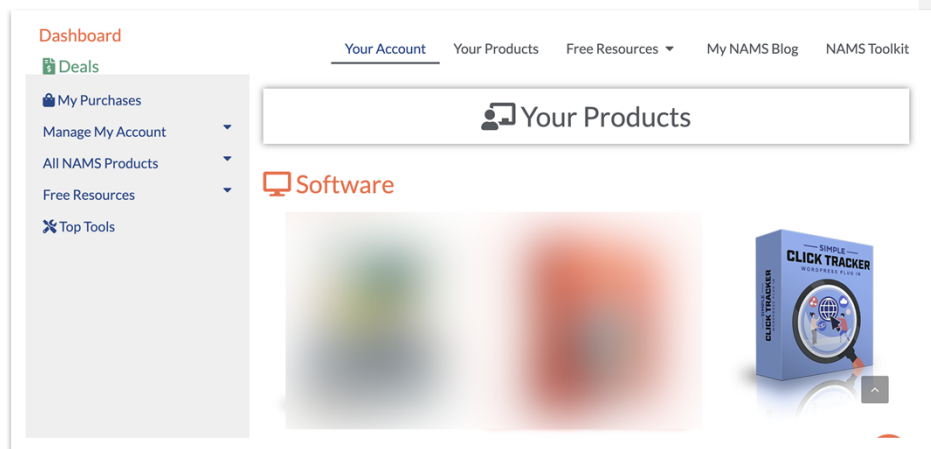

Login and Download the Product If You Didn't Get to the Download Page Automatically

If you didn't click the direct login link, go to the page indicated in your email and log in with username and password to input into the login widget the Learning Center.

The next screen is an access screen. Click on the "View My Products" link to go to the software download page.

Scroll to the Software tab as shown below. We have many software products, but you'll see the Simple Click Tracker tool as well. Click the box.

If you purchased from an affiliate who provided additional bonuses, you'll have to redeem those bonuses from that affiliate.

Download your plugin to your computer.

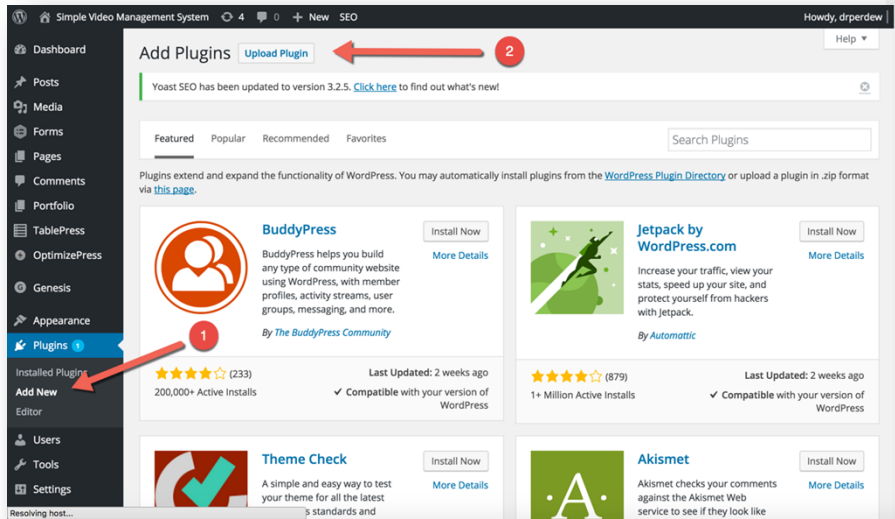

Save it in a place where you'll find it in just a few minutes when you're ready to install.

IMPORTANT: Make sure that you see your license key on this page.

You'll need that key to complete the plugin install. Keep it handy.

Installation

The Simple Click Tracker plugin installs like most other WordPress plugins. Simply and successfully.

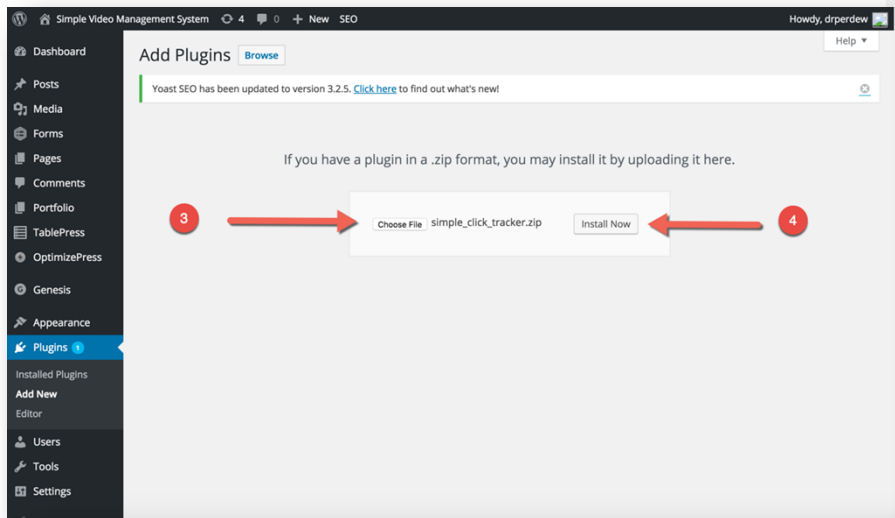

After you've downloaded the plugin, you'll upload the zip file titled "simple_click_tracker.zip"

Login to your WordPress backend – most people use the WP_Admin login to access the plugins.

- 1 You'll see "Plugins" on the left column. If you click on that, you'll see a sub-menu that includes "Add New" – Click that.

The screen above will come up with the heading at the top "Add Plugins."

- 2 Next, click "Upload Plugin" to go to the next page.

- 3 On the next page, shown above, you'll select the plugin file to upload from your computer with the "Choose File" button.

Remember, you downloaded to a folder and saved the zip file. You don't have to do anything to the zip. Just choose the file - "simple_click_tracker.zip"

- 4 Once you've selected the file and it is displayed as shown above, click the "Install Now" button.

Installing Plugin from uploaded file: simple_click_tracker.zip

Unpacking the package...

Installing the plugin...

Plugin installed successfully.

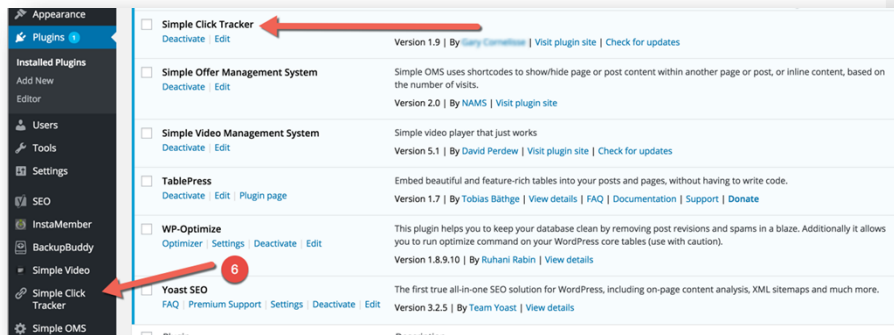

[Activate Plugin](#) | [Return to Plugins page](#)

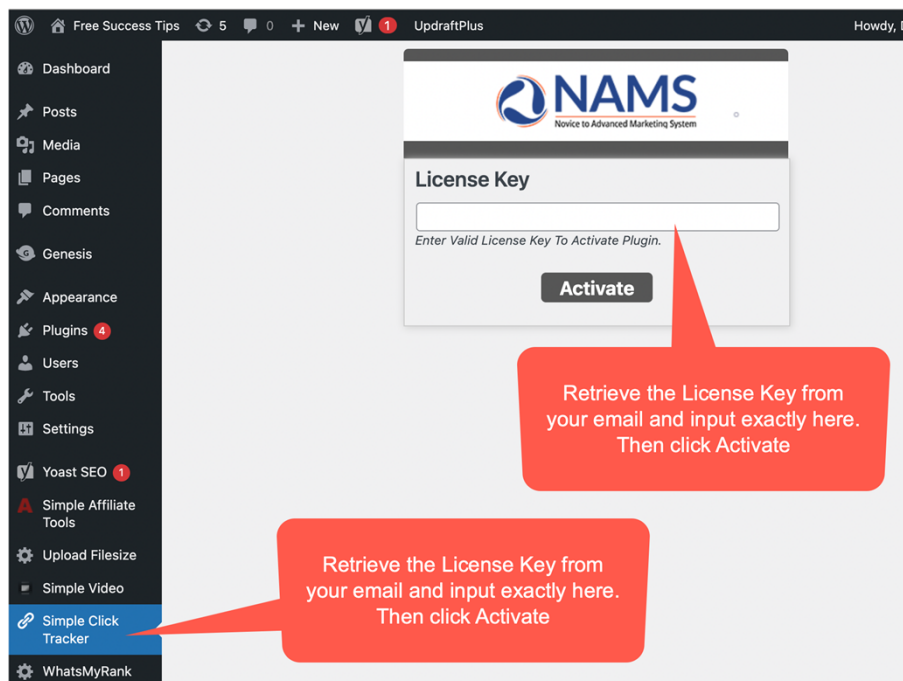

The next screen above displays and usually it only takes a few seconds for it to complete loading the zip.

- 5 When you see the “Activate Plugin” link, click that and the plugin will be activated, but you’re not done yet.

Now, we get to licensing to make it functional.

Simple Click Tracker now shows up in the left sidebar and in the “Installed Plugins” section.

- 6 Click the “Simple Click Tracker” in the left sidebar, and since it’s your first time, you’ll see an license box.

Copy the license you received when you accessed the member site earlier and paste it in the text box. Be sure you don’t have any trailing spaces in the front or back of the key. Click “Activate”.

If the license is valid and you’ve input it correctly, you’ll see a congratulations message like the one above.

Click the blue button that says, “Go to Simple Click Tracker” and you’ll be taken to the main tab on the Simple Click Tracker.

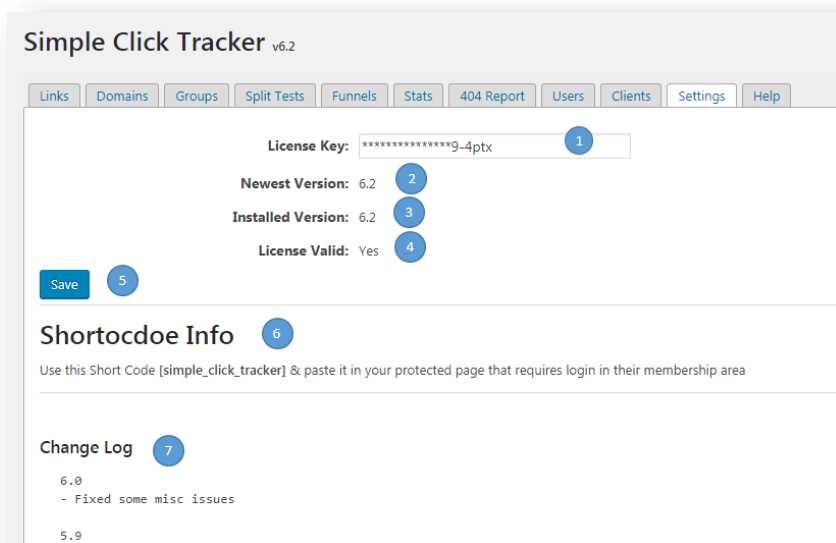

Settings

Always add your license to the plugin so you can get the most recent versions. We’ll always show you here which version you’re using and which is the latest.

Shortcode info. This is a plugin, but you can also create this as a page on your site just by adding the shortcode to a post or page to get a front-end view of your SCT data.

It works exactly like your plugin.

Be sure to put it behind a protected page so that only you and your team can access it.

1 License Key – this is an indicator that your license is installed in the plugin.

2 Newest Version – this will always indicate the latest version of the software.

3 Installed Version – if your installed version is older than the newest version, you should go to the active plugins screens in WordPress and update the software.

4 License Valid – indicator that your license is current and valid.

5 Save - with the save button. You can make changes here anytime and save the changes.

6 Shortcode Info - This is a plugin, but you can also create this as a page on your site just by adding the shortcode to a post or page to get a front-end view of your SCT data. It works exactly like your plugin. Be sure to put it behind a protected page so that only you and your team can access it. We do not recommend exposing this to the public. Anyone who sees this plugin info will have the ability to change your links.

7 Change Log – any changes to the plug in will be recorded here.
