However, it's important to remember that all the resources in the world won't help... until you start taking those first steps and get building. Let's start with the absolute basics; then take a look at other proven cool tools.

Aweber

Aweber offers all the latest templates for everything from newsletters to web forms, mobile interaction and access, a drag-and-drop editor, up-to-date tutorials and top-notch customer support, all for the sum of less than \$20 per month. MailChimp

GetResponse is famous for allowing you to create landing pages and webinars within it, as well as having all the features you would expect in a professional-level autoresponder (including handy infographics and guides)—and instructions on migrating your list from Aweber.

Each of these autoresponders practices exponential pricing. The formula also differs for each one, so that the most inexpensive when you start list-building will not necessarily be the most inexpensive as you grow, so to give you a better idea of where they will stack up once you start to collect serious numbers, here's a comparison at 2,501 subscribers:

| Aweber | MailChimp | GetResponse | ConstantContact |
|--------------|--------------|--------------|-----------------|
| \$49 monthly | \$35 monthly | \$25 monthly | \$60 monthly |

There's no more need to do things the hard way. Choose your ideal list-building tools and enjoy the results!
