WordPress Starter Kit Checklist

Use this document in combination with the WordPress Starter Kit Workbook and the special guide called **Get Your Website Online in Less Than 24 Hours**. Follow each section closely to ensure that you've not missed any important steps in setting up your site quickly.

Get the domain

Use [Simple Niche Domains](#) to get a special deal on the .com domains.

- ☐ I have secured a .com website in my own name (first name + last name)
- ☐ I have secured a .com website with the name of my signature system, program or product
- ☐ If I was unable to secure a .com website in my own name, I chose the most logical alternate name or extension
- ☐ Even if I am not planning to run a website right now in my own name, I have secured the .com domain for my first and last name anyway, if available
- ☐ When creating a website name, I am focusing on:
 - ☐ What search terms my ideal visitors are likely to search with
 - ☐ What is most memorable

Get a starter hosting company

Do NOT get your domain AND hosting account with the same company. It may seem logical and much easier to do so, but it's more dangerous since you don't have ultimate control over your business if you needed to move it quickly.

Think ahead and protect yourself by getting your domain and hosting at separate companies.

We recommend [Simple Niche Domains](#) and our [Favorite Host with the Best Plan and Best Service](#) currently.

- ☐ I am thinking of my future online plans, when choosing a web hosting plan and company
- ☐ I am aware that web hosting companies who promise incredibly low-cost plans often do not contain all the necessary essentials
- ☐ I am looking for a web hosting plan that includes:
 - ☐ A guaranteed uptime of at least 95%
 - ☐ All the tools needed to do the job, including:
 - ☐ The latest PHP and MySQL
 - ☐ Softaculous App
 - ☐ cPanel
 - ☐ Unlimited bandwidth and/or add-on domains
- ☐ I understand the difference between [web hosting](#) and [domain registration](#); and that the two should not be done through the same company

WORDPRESS STARTER KIT - CHECKLIST

- ☐ I understand that the act of changing my Name Servers is not:
 - ☐ A re-direct
 - ☐ A transfer
- ☐ I have decided on one of the following two options:
 - ☐ Registering my domain name through my [web hosting company's](#) free registration with plan offer even though *we recommend NOT doing that*
 - ☐ Registering my domain name myself, at an [independent registrar company](#)
- ☐ I understand that I will still have to renew my domain name at intervals, even if my web hosting company absorbed the cost of the initial registration
- ☐ I have chosen the [best hosting plan](#) and [domain registration](#) option for me, along with the best payment options

To recap

☐ I have:

- ☐ Registered my domain
- ☐ Signed up with a web hosting company
- ☐ Pointed my Name Servers to the new web host, if different from the registrar
- ☐ Checked to make sure that the change is active
- ☐ Installed WordPress on my new website
- ☐ I have chosen a unique Admin name that is not “Admin” or my own name!
- ☐ I understand I can (and should) select a nickname immediately

SO WHAT DO YOU NEED TO DO TO MAKE THAT FIRST \$1000
